Queenstown – Water Map

Showed location of proposed water treatment facility and proposed ground storage tank.

Text Amendments

3.3.3.7 Queenstown

Add the following paragraphs to the end of this section:

In 2023, the Town plans to improve their existing water system by taking the following actions; refurbishment of the existing 50,000-gallon elevated tank located on Wall Street, installation of a new 100,000-gallon ground storage tank located adjacent to the existing Queenstown Outlets property's elevated tank (Tax Map 59-A, Parcel 98, Lot 1), construct a new 4-inch well into the Mattawan aquifer and a new water treatment facility located on Del Rhodes Avenue (Tax Map 51-H, Parcel 40, Lot 1), replace undersized and/or defective watermains to meet the provisions of the 10 States Standards to all areas within the Queenstown service area, and extend new water mains to recently annexed areas. In addition to the new Groundwater Appropriation for the Del Rhodes Avenue well, the Town will seek to increase the Groundwater Appropriation Permit for the two existing wells currently into the Mattawan aquifer.

(end of amendment 11-18)
